For Indian delegates INR 12000
For Foreign delegates USD 250

Venue

Vasant and Nirmala Oswal Center for Post Graduate
Training and Education,
Deenanath Mangeshkar Hospital & Research Center
Erandawane
Pune 411004. India

SCIENTIFIC PROGRAMME

LECTURES

- # Laser Physics and Laser Safety
- # Transoral CO₂ Laser Surgery in Benign Laryngeal Lesion & Early Glottic Cancer
- # Indications & Selection Guidelines for Medialisation Thyroplasty
- # Medialisation Thyroplasty

DEMONSTRATION & HANDS ON TRAINING

- # Laser cordectomy and partial arytenoidectomy on cadaver larynx with CO₂ laser
- # Medialisation thyroplasty on cadaver larynx
- # Laser application with diode laser on cadaver tongue specimen

TARGET AUDIENCE

This laryngology course has been designed for acquisition of higher diagnostic and surgical skills in the management of laryngeal disease and disorders. It is suitable for ENT surgeons who hold a Postgraduate Degree in otorhinolaryngology and are competent with the basic diagnostic and surgical skills in dealing with laryngeal pathology and disorders.

COURSE OUTCOME

- # To understand laser physics, safety and application of CO₂ & Diode laser.
- # To be able to perform transoral laser surgery for cordectomy and partialarytenoidectomy with CO₂ laser.
- # To be able to perform medialisation thyroplasty.
